TECH STACK

Data Science

Machine Learning, Deep Learning,
Exploratory Data Analysis,
Data Visualization.

Programing Languages

Python, Java

Web Development

React JS, HTML, CSS, JS

Databases

SQL – MY SQL, MS SQL

NO SQL - Mongo

AREAS OF EXPERTISE

Data Analytics

Machine Learning

Deep Learning

Deployment

LANGUAGES KNOWN

English, Hindi, Telugu

PROFILE

Analytical, consistent, and enthusiastic data-drive professional with over **2+ years** of valuable experience with proficiency in machine learning & statistical modelling algorithms. Expertise in conducting **end-to-end lifecycle analysis** including data gathering, cleansing, & recommendations to optimize performance. I am passionate about building and applying algorithms to solve real-world industry problems.

EMPLOYMENT HISTORY

Business Analyst at Genpact Pvt Ltd company, Bangalore, India

July 2022 — Present

- Machine Learning

1. Working in a supply chain project. Data analysis and building forecasting algorithms for predicting the orders.
2. Developing a model in java by creating a market media mix analysis.
3. Managing databases like SQL created a various logic to create and manipulate data.

Junior Data Science Engineer at LogiQ Dreams LLP company, Kerala, India

December 2020 — June 2022

- AI & Web Development

1. Created an end-to-end life cycle of appliance detection using classification models helped to reduce the cost of electricity billings in different areas.
2. Developed a helmet detection in construction site for safety measures by creating a model in You Only Look Once (YOLO) with a higher accuracy.
3. Worked on a web application for an oil industry. Similar to linked in to create profiles connect with different people and provided a reference to users.

INTERNSHIP

Software Intern at PSquare Groups company, Andhra Pradesh India.

April 2018 — May 2018

Skills Earned: HTML, CSS, JS, PHP, SQL And Software Development Life Cycle.

Web Developer

1. Well versed with life cycle of the software development process.
2. Assisted with designing and implementing websites for hotel using HTM, CSS, JS & Bootstrap.
3. Got hands on experience with PHP and SQL development on hotel management software.

EDUCATION

BTech in Computer science engineering, Jawaharlal Nehru Technological University

April 2015 — 2019 | Percentage: 64.30

Skills Earned: Java, Python Programming, Probability and Statistics, Web Development, APP development.

Projects:

1. App Development: Application for college management System helps students to login the students and faculty can receive college updates and syllabus. This app focus on creating a UI for fest to interact with users.
2. Web Application: Online Examination is created to conduct a test by providing questions and answers with marks. It generates scores by comparing the overall participations in exams.

Projects

Created an end-end life cycle of ML & DL projects. Developed web applications with system design and latest technologies.

Tools & Frameworks: React JS, Django, Mongo, and Data Science projects.

Projects:

1. **Recipe Recommendation:** Uploading a picture of fruits, vegetables and meats it recognizes each objects in an image and recommends a recipe by different continental dishes and also provides the information of required ingredients. [Know More](#)
2. **Text Analysis:** Gathered 10k+ reviews on movies. Using NLP to achieve the sentiment analysis on each review how users are reacted positive or Negative by applying some statical and analytical techniques. [Know More](#)
3. **Machine Learning Models:** Using different data sets from various sources created a GitHub repository to contribute knowledge on various Machine Learning models with a data analysis and documentation. [Know More](#)

Certifications

1. **Java:** Completed java developer course from Udemy. [Certificate](#)
2. **UI Path Automation:** Certified in UI path automation. Developed an application by automating the search for tickets by bus, trains and flights websites. [Certificate](#)
3. **Salesforce:** Certified Business Administration specialist in salesforce. [Certificate](#)
